EDITORIAL CORRESPONDENCE.

SAN FRANCISCO, Dec. 13. This morning's dispatches, which will have been yours long before this reaches you, announce that Governor Downey has declined the nomination. The Post is advocating very warmly the coalition of Independents and Democrats, and with a measure of success. Independent, like ourselves, it is working hard against all monopolies, burdensome tariffs, land-grabs, and unequal taxation of property. may mention that many great capitalists, Friedlander and Chapman included, are strongly in favor of forcing large land-holders to improve their property, or pay taxes as though it were improved. The mass of the people are against the property-holder who lets land lay idle for years at an assessment of \$3 or \$4 an acre, whilst demanding \$70 or \$80 from prospecting purchasers. For years such men have cheated the State of its lawful taxes, and kept unimproved and unsettled some of the best portions of the State. Booth's chances have improved immensely the last two days. Five days ago his prospects were far from bright, but now the political stock market is running him up.

THE BEAR BOY.

And a talking head, are the present curios in the market. Having no curiosity to see either, I cannot describe them; but both are said to be "billques." There are several Los Angelians in town, and one or two Barbareños; but no Sanddiggers that I am acquainted with. I met yesterday Mr. Milliken, Dr. McDougall, Mr. Austin, Ed. Baker, and Canfield of Water Works fame. THE PLACARD EXCHANGE,

On Merchant st. is the new enterprise of Marriott, of the News Letter. The idea consists in frescoing the walls in large letters with every possible information about San Francisco. Theatres, Steamships, Hotels, Trains, and a thousand other subjects adorn the walls, and offer the fullest gratuitous instruction as to their separate doings. mation about San Francisco. Theawalls, and offer the fullest gratuitous instruction as to their separate doings. Up stairs are rooms containing classified advertising departments, and movable screens covered with notices movable screens covered with notices of firms. The rooms are very pretty nevertheless, and fitted up hastily with fountains, flowers, hanging bird cages, etc. I never see a Los Angeles paper in a hotel, or in places of public resort, excepting the Mercantile Library, and Merchants' Exchange; but I do see San Diego papers constantly, and the first thing that struck me in the Placard Exchange, was a notice a foot card Exchange, was a notice a foot revenues, but by extraordinary approsquare of the San Diego Union. This priations of four or five millions for should be remedied at once by all of our city papers, without rivalry. For ourselves, there is some excuse, owing to the short time we have issued. The Chronicle and Call are still fighting about circulation, which interests nobody but themselves, and affidavits are the order of the day. The Art Association has a splendid winter exhibition, but a mock modesty, which is akin to vice, has carried the day on. an absurd question of undraped statuary. The figures have accordingly been mutilated to satisfy maudlin puritans. It reminds me of a boy at school, who once construed ventrum, the lower part of the chest, and blushed when corrected by the tutor, and ordered to translate its belly.

Which have risen very rapidly, have fallen a little temporarily; but there is every indication of a lively spring excitement, and the usual "bust up" at the end. Gould & Currie, Best & Belcher, Overman and others are the Belcher, Overman and others are the principal source of speculation. It is not interesting to report Theatres, and to say the truth, I have not been to any place of amusement yet. Madame Bishop is giving concerts, and looking as well as ever. She refers to her Los Angeles visit as one of both pleasure and profit. The row between Murphy and McShane, has resulted in McShane being held in bonds of \$15,000. Public sympathy is with Murphy, but those who know him give him little. He is a blustering, good natured blower, better known in Washington Territory and British Columbia, where he has run on different papers, and written has run on different papers, and written descriptive books about the resources of Washington Territory. The whole affair, in both languages, was a "ridic-

Several prominent Senators express surprise at the action of the House in fairs. The Senate is ready to enter on legislation at once, and if possible to afford the necessary relief before the holidays. It is certain there is less disposition in the Senate than in the

House to agitate the salary question. There is a general indisposition among Congressmen to increase taxation, and it will not be done without necessity being shown. No hasty action is anticipated. The Treasury Department in account of the control of the partment is somewhat pressed for money, not only by the falling off of naval purposes, and the approach of redemption of the twenty million loan

HAVANA, Dec. 14. The man-of-war Isabel La Catolica returned to this port yesterday. She left the Virginius in charge of a Spansh gun boat at Bahia Honda. The Spanish steamer Bazan has sailed from Santiago for Bahia Honda, with the Virginius prisoners on board, and is expected to arrive at the latter place to-morrow. It has been arranged that the Virginius and her surviving passengers and crew shall be delivered to the Americans at the same time at Bahia Honda. Havana has two battalions of volunteers on duty for pre-servation of order. The ringleaders of the demonstration on Friday night has been arrested and will be tried by court martial. The Captain General in his speech to the volunteers, to-day, said he knew all good citizens sided with him and would assist in putting down any disturbance.

Our Currency.

The hope that in the natural course of events the present condition of our finances would be improved, and the same currency brought into use in all parts of the country, seems to be doomed to disappointment. It has been generally conceded that in clinging so tenaciously to the metallic currency on this coast, we have done our trade incalculable injury, and retarded for years the development of our resources. The gradual approach to an eqflibrium in gold and greenbacks during the months of October and No vember, leading many to expect a resumption of specie payments, has stilled for the time being the cry for the adoption in this State of the national currency, but gold is again rising in New York, and we see nothing to indicate that its use as a circulating medium will be brought about in any reasonable time. Manifestly then we must adopt the greenbacks, or continue the Chinese system, that is barring out the enterprising men of the east, and excluding from our State the capital that is waiting for investment.

There are a few who imagine that cur comparative escape from the recent financial panic is due to our metalic currency. That this is wholly erroneous is plain when we reflect that this was not a currency panic at all, but that on the contrary, the currency was really appreciated in value. Our relations with the rest of the Union are as intimate as those of Iowa or Maine, yet we cling to a different measure of values, and throw obstacles in the way of trade. We expect an increase of population, and eapital, from the East rather than from any toreign country, yet we tax every one who comes to us, over ten per cent. of their whole capital, for the privilege when he offers to secure the Governof joining in the work of improving the State. We do not like the idea of legislative tinkering with the finances, but this one thing we do expect of our present Assembly, that as far as possible it shall place the State in harmony with the rest of the Union on the currency question.

When we pay taxes to the Federal Government, we use greenbacks, but our indebtedness to the State must be discharged in gold. The Federal officer is paid in currency but the State official is paid gold. If we pay a bill in the East we exchange our gold for greenbacks. If an Eastern man invests money here he must trade his greenbacks for gold. Not only does this cause inconvenience, but it entails a constant loss. The broker through whom the exchange is made has his profit on the transaction. If you buy greenbacks, you must pay more than they are worth, if you sell you must take less than their value. It is time all these clogs to our business should be removed, and we hope this session of our Legislature will not close without the passage of a law providing that the National currency shall be receivable for all debts owing to the State, and all claims against it. Then we shall see how long our business men will hold to their antediluvian

The Harbor Question.

The Express finding that bluster and bravado do not pass current for argument, has wonderfully modified its position on the harbor question, and now proposes light draft steamers as the solution of the diffiulty. We should be very glad to see a large fleet of such craft plying along our coast, laden with the rich products of the south, but we desire also to have a port that ocean steamers will be able to enter, and hope at no distant day, if thedictates of common senseare followed, to see such a consummation. Does the Express desire nothing better than that Los Angeles shall forever remain a satellite of San Francisco? Has it no ambition to see this city in direct communication with the great markets of the world? And yet this is the only result that can flow from wholly depending on small light draft vessels.

Our suggestion that the road shall be extended to the breakwater, will have the result of placing us in direct communication with the vessels we now have. We not only believe that this will be better for our interests now, but that it will result more favorably in the future. Something can be done immediately at making a good and safe harbor. Place our city in easy reach of it, and do away with the expense of lighterage, and the increase of business will be so great that the harbor will steadily be improved inward till the entire distance from the sea to Wilmington is lined with

wharves. THE honesty of a legislative official at Sacramento, who having been charged with the purchase of postage stamps, and neglected to steal the premium on \$1,200 coin furnished him to pay for them, is commented on favorably by the city press. The dishonesty of those in authority must be acton-ishing, when even the least deviation is thought worthy of exalted com-

ment.

The New Chief Justice. George H. Williams, of Oregon, the

newly appointed Chief Justice of the

United States, is the ninth person who has been named to that high and important place. The first was John Jay of New York, appointed by Washington; holding the place from 1789 to 1795. From 1795 to 1801, it was tilled by John Rutledge, of South Carolina; William Cushing, of Massachusetts; Oliver Ellsworth, of Connecticut; and again by John Jay, of New York. In 1801 John Marshall, of Virginia, was appointed by Thomas Jefferson, who presided over the court with distinguished honor, until 1835. Roger B. Taney was then appointed by President Jackson, who retained the place until 1864; when Salmon P. Chase was appointed by President Lincoln. Now President Grant has tendered the place to his Attorney-General. This act will not take the country by surprise. as Judge Williams was named as among the probable recipients of the presidential favor. He was born in New York; received an academic education; studied law and was admitted to the bar, and then emigrated to Iowa. In 1847 he was elected judge of the first judicial district of Iowa, and in 1853 was appointed Chief Justice of the Territory of Oregon by President Pierce. He was reappointed by President Buchanan, but resigned. He was a member of the State Constitutional Convention, and in 1864 was elected to the Senate of the United States, taking his seat in 1865. He made an honorable record in the Senate, acting on the judiciary, finance, claims and other important committees. At the end of his senatorial service, he took his seat in President Grant's Cabinet, as Attorney-General; and now becomes

PACIFIC.

Chief Justice.

When Congress granted United States bonds to the Union Pacific Raiload Company, to assist in building that road, it was expressly stipulated that the Government should have a first mortgage on all the property of the company. The shrewd financiers who managed the Credit Mobilier soon found means of getting rid of this troublesome provision, and the first mortgage became a second mortgage, which amounts to just no security at all. Pennsylvania Scott has long had the reputation of being able to twist Legislative bodies around his finger, and ment by a mortgage on the Texas Paeific in return for a loan of national aid, we cannot help calling to mind the elegant legerdemain by which the United States was swindled out of its security by the Credit Mobilier. A great many of our contemporaries are pacific. Some of them pacific towards Spain, some Northern Pacific, and some Southern Pacific, but we hope that very few indeed outside of the paid organs of the subsidy ring will long remain pacific toward the gigantic combination which is bearing down on Congress for a fresh batch of Government bonds.

How to Secure Trade.

We have frequently urged upon our merchants the importance of aiding in the construction of good roads, if they desire to secure permanently the important trade of the interior districts. We may rely on our favorable position, but unless access to our town is made easy and sure at all seasons of the year, all other advantages will prove inadequate. There is still another means of reaching the merchants of the interior towns, and that is through a liberal patronage of their local press. It is well to keep the advertising columns of the city press well filled, but there is also money in informing the people through their own papers, of the advantages of trading in Los Angeles. Our merchants should subscribe for copies of every interior paper, and keep their cards in a prominent position in their columns. Our word for it, they will never regret such an investment.

A NEWSPAPER that oppposes the greenback currency triumphantly points to the fact that legitimate banking pays a profit of twenty-two per cent. A considerable portion of this profit, we take it, arises from the repeated exchanges of gold for greenbacks and greenbacks for gold, a nice little percentage being always charged for performing the service. It may a good thing for bankers to keep capital out of the country, but we imagine the people who are paying high rates of interest for money to carry on their business with, would hail the raising of our embargo on capital, with pleasure.

The Mohongo sails for San Francisco to-day. The steamer Orizaba is due here on

the 20th inst. The School Exhibition is adjourned to an undetermined date.

The clouds have been promising more rain for several days. Quartermaster Dana of Arizona is

at the Clarendon with his family. Pannamint is not yet developed. Shafts have only been sunk eighteen No business house should try to get

along without a neatly printed Letterhead, and the HERALD Office is the place to get them. Wm. A. Mathesius, a thorough machinist, has established a machine

shop in connection with the Aliso street foundry.

Lieutenant W. J. Ross, Assistant Quartermaster on the staff of General Crook, is in town, enjoying the hospitalities of J. A. Billings, Esq. The freight teams leaving the depot yesterday, were 2 to San Bernardino, I with assorted freight and the other

consigned to W. M. D., and 2 to Cerro

Gordo consigned to V H & Co. A vist to the Library will pay any one, sojourner or resident. Los Angeles has reason to be proud of her Library and should take steps to improve and extend its usefulness.

From what source does the Express get its Nietos shipments, and half its local brevities? Why answer, for it has little local except the everlasting puffs, probably paid for.

At Wells, Fargo & Co.'s office yesterday were some very fine young or-ange trees from Mr. Garey's nursery, marked for shipment to Visalia, Tulare county.

The Express has taken up the cudgel and is going for the firewood peddlers. That's a good idea. Its editor understands such matters, and that is more than we can say of him in other fields. The freight received yesterday at

the depot for shipment was as follows: 398 bars bullion; 11 cases boots and shoes; 8 boxes oranges and lemons; 137 boxes oranges; 3 boxes lemons; 4 bundles sugar cane; 170 wet hides; 34 dry hides; 2 packages merchandise; 5 boxes trees; 35 sacks of corn.

A glance at our list of exports will give a stranger an idea of the variety of our products, bullion, honey, oranges, hides, asphaltum, tallow, corn, dried peaches, brandy, crude petroleum, wine, apples, figs, ore, English walnuts, castor beans, hops, potatoes, eggs, limes, and hundreds of other things.

General Danna, the well known officer, who is the subject of the complimentary order issued by General Crook, and published in this paper, arrived at the Clarendon yesterday, accompanied by his wife and son, and Messrs. James O'Neal and W. P. Barnes. The two latter gentlemen are

well known to our citizens. The Chicago Public Library acknowledges the receipt of the WEEKLY HERALD in a very complimentary note, and hopes that it will still continue its weekly visits. We shall be very happy to give the thousands of frequenters of that great institution reliable information from this to that far away section of the Union.

The example set by Mr. Beaudry, in offering a large number of elegible residence lots, at low prices, and allowing payments to be made in small monthly instalments, is one that commends itself to every property-holder in town. What we want is citizens, and the surest way to bring them here. and make them permanent, is to place good homes within their reach.

A Christmas Concert and Festival, for the scholars of the Episcopal Sunday school, will be given during the holidays, at a time and place to be hereafter named. Donations of money for the festival, from those who may be kindly disposed to further the hap-piness and pleasure of the little ones, will be received by Rev. J. B. Gray, Rector, and by Mr. Broderick at his

Rector, and by Mr. Broderick at his book store.

Our twilight contemporary, evidently exhausted by his tremendous labors on the harbor question, and anxious to bring his light-draught vessel into shallow water is studying up bigamy. At latest accounts he had satisfied himself that bigamy is no crime, though we cannot imagine what good that will do him. Certainly no more than one woman could be induced to endure him at one time.

What has appeared in the HERALD of such mediocre merit, as to warrant the Express in claiming it. Good God forgive us if we have so insulted our readers as to capture an article from that paper? Will the Express please pick out those articles in the HERALD which it claims, and relieve us from the responsibility of fathering them. Maybe the Express man refers to advertisements.

R. McConnell should be attended by every old Californian, every wellwisher of the Library, and every one who enjoys a good thing. "The Men of '49, What they Did and Suffered," is the theme; and General McConnell's acknowledged ability insures an evening's successful entertainment such, his former commanding officer and

California Mutual Aid Association was recently held at the Secretary's office. The Secretary's report gave very good satisfaction. The receipts up to that date were \$692 75. The Association now has over four hundred dollars at interest. C. B. Cigsby, for three years traveling agent of the Petaluma Association, arrived by the last steamer, and has taken the field for the Mutual Aid Association. The Mu-tual Aid for January will be issued on Saturday of this week for the benefit of those desiring to advertise holiday goods.

At a meeting of the South Star Lodge No. 7, I. O. O. F., on Tuesday, Dec. 16th, 1873, the following officers were elected: N. G., H. Burdick; V. G., S. J. Mayer; R. S., E. H. Owen; T., Chas. Gerson; I. G., J. R. Somers.

A stove is an excellent and very necessary thing to have in a well regulated house, especially during the chilly nights of winter, but is not just the thing to leave over night in the middle of an unlit sidewalk. A gentleman approaching the HERALD office with a good business headway, suddenly "summer-saulted" over two of them, and made an interrogation point of himself in the mud beyond. He is not a professional acrobat or pugilist, but as he calmly scraped the mud from his digits, he was heard to mutter something about wishing "to see that man, etc." He didn't want to buy any stoves either.

Our Public Schools.

The teachers are busily occupied in examining their classes in order to determine what changes are necessary in the system of grading adopted at the beginning of the session. Some pupils may be promoted, while others will have to fall into lower grades. The examinations are in writing in all grades advanced enough for such a test. Asthe teachers will have from two hundred to three hundred papers to exam-ine the result cannot be determined until after the holidays. For the satisfaction of parents there will be public oral examinations on Thursday and Friday. Mr. Saxe, Miss Fisk, Miss Casad, Miss Scott, Mrs. Bent, Mrs. Sullivan, Miss Porter, Mr. Saxon and Miss Bixby will examine their classes on Thursday; Miss Bixby and Miss Scott commencing at 1 o'clock. The other classes will be examined on Friday, Mrs. DuBois and Miss Heach

The Exhibition is postponed on account of the rains. Due notice will be given when it will take place.

A Handsome Establishment.

There is no better way for a stranger to judge of the business enterprise and liberality of a place, than by consult-ing the advertising columns of its local papers. One may be assured that the man who makes his business known to the world is up with the times, and wastes no money in the purchase of goods that are out of date. What we have said applies particularly to the firm of Fisher & Co., whose fine jewelry establishment on Main street is one of the most attractive features of our principal thoroughfare. The inquiring purchaser can always find an attractive advertisement of Fisher & Co.'s goods in the papers, and he is equally sure of finding a magnificent stock of goods in their store. Just now their new supply of fine holiday goods is attracting especial attention. The taste and judgment shown in the selection of their stock is only equalled by the lavish expenditure of money in placing before our citizens such a display of elegant and costly works. Those who holiday presents of any kind should look through Fisher's stock.

Pluck.

If we understand anything, and we think we do, then the thirteen-yearold son of General Danna possesses this quality in an eminent degree.

Master Richard Danna has accomplished a feat that but few youngsters of his age could have done, in driving his fathers ambulance and handling a six-in-hand mule team from Prescott to this place through the most severe storms that have been experienced since the winter of '62. A feat like this is the best evidence of the stuff of which the old army was composed. We would like to cultivate the acquaintance of master Dick and keep him amongst us as a model for the rising generation of our city. His honored father should be proud of so worthy a scion.

A Merited Compliment.

The following General Order issued by General Crook on the occasion of the transfer of Major Danna to a new field of duty, is a merited recognition of the worth of one of the active and efficient officers who have contributed so greatly to the defence of our exposed settlements from the gentle

HEADQ'RS OF DEPT. OF ARIZONA. PRESCOTT, Nov. 30th, 1873.

GENERAL ORDERS No. 39. Maj. J. J. Danna, Quartermaster U. S. A. is hereby relieved from duty in this Department, and will turn over to Capt. A. F. Rockwell, Assistant Quartermaster, all funds and property for which he is responsible as Chief Quartermaster of the Department.

In taking leave of Gen. Danna the Department Commander avails himself of this occasion to commend the integrity and ability characterizing that officer's administration during his tour of duty in the Department, during the greater part of which time active operations on an extended scale were being carried on against the hos-tile Apache Indians in this Territory, occasioning unusually great demands upon the Quartermaster's Department and a correspondingly great amount of intelligent personal supervision and attention from the officer in charge.

Maj. Danna bears with him to his

new field of duty, the best wishes of associates.
